ALFAR CREAMERY
AN EDITORIAL
By Edgar Pennington Young

Elbert Hubbard used to say that every great and successful business institution was but the reflection of a single man. He spoke the Truth.

Alfar Creamery is but the reflection of the character of its founder—Alf R. Nielsen.

The one and only objective of Alf Nielsen, since the day in 1922, when he established the old Palm Beach Creamery, has been, and is, to produce a product of quality at a fair price.

This unusual man has never wavered from this objective. Yes, it has cost him profits and dividends, but he has never sacrificed Principle for Dividends.

The well informed know how true this is.

As a result, the Alfal Creamery to-day is one of the largest Independent Creameries in the entire South.

On that we had more of such men!

We live in a day when the Greed and Glut of men has but one objective: Dividends.

Alf Nielsen was one of the first men I met when I came to Palm Beach County three years ago. I have talked with him hours upon hours. I have observed him when things were going fine and when they were tough. But I have never seen him wander one iota from the Path of Calmness and Serenity.

I believe in saying nice true things while men live.

Alf Nielsen is always a gentleman; he can turn you down and yet you like him; you want to go back and talk to him some more.

I started to write an Editorial about Alfal Creamery but I have first got to pay Alf Nielsen the tribute he so well deserves.

So few seem to know how Alfal Creamery gets its name. Say Alf R. and you have it.

Many, many months ago I told Alf I would write an Editorial about his Creamery and he had a permit to hang it on.

That day came when, only recently, I learned that Alf had given a Party to his Plant Manager—a Buffet Supper, if you please, at 328 Cordova Road.

The gentleman honored is Everett A. Koski, who looks and acts more like a Banker or an Industrial Executive. But there Koski has been for 19 years in loyal and efficient service and bound by ties of affection.

I recently saw Alf in conference with Mr. Koski and others and it looked more like a family gathering than a business conference.

Right here is the secret of Alf Nielsen's success; he has surrounded himself with men he likes and who like him.

Alfar Creamery, from one end to the other, is just like a big family. I have wandered all over the place and I know.

At this Supper Mr. Koski was presented with five One Hundred Dollar Alfal Convertible Debentures as "A token of his untiring efforts during his 19 years association with the Company."

If he had more Employees like Alf Nielsen there would be mighty few Communists.

The greed of Employers gave Birth to Communism but Labor, to-day, is a greater enemy under the domination of Unions than Employers ever dreamed of.

Labor has made of our Economy an Insane Asylum.

Koski is a good old Hoosier. He came from Indiana in 1922 and has stuck to Alf Nielsen like glue.

J. W. Gooding, Sr., all his life a Dairyman, is also one of the close associates of Alf Nielsen. Mr. Gooding is Treasurer of the Company and since 1922 has demonstrated over and over again his ability in Financial matters. He is recognized as a Financial genius.

Mr. Gooding is in charge of the Office which has been modernized under his direction.

Alfar Creamery was the first to serve the Glades. This service began in 1932.

The past few years Alf has been gradually turning over to his son, Gordon Nielsen, the responsibility of running this great Institution. Gordon is Executive Vice President and when Alf Nielsen bestows such a title, son or otherwise, it means all it implies.

Gordon has made good. He is a lucky boy, and so is Alf, in having such a son.

It would take a lot of space to tell how many Organizations Alf Nielsen is affiliated with, mostly as Chief Executive.

But the two outstanding affiliations are these: He was one of the Organizers, and is still a Director, of the Atlantic National Bank in West Palm Beach. President of which is H. C. Smith, highly regarded in Financial Circles. Alf is also a Director of the Florida Power and Light which is an honor any man should be proud of, for this Institution, under the direction of President McGregor Smith, has become a benefactor to every Community it serves.

We live in a day when the tendency is to bite the hand that feeds us.

The answer is more Alf Niensens and his Alfal Creamery.

Delinquent Glades Lands In Demand At Annual Tax Sale

Tax Collector Stetson Spruill began the sale of lands and properties delinquent in taxes, on Tuesday, and he reports that there was a brisk demand for sale.

This was particularly so in relation to Glades property, which was snapped up with avidity by the bidders, who apparently knew the value of improved or unimproved property.

This indicates that persons desiring to make investments in this type of property are not passing up Glades tax delinquent properties.

Small Cyclone Swept Over Glades Area Tuesday Afternoon

Threatening black clouds came in from the west on Tuesday afternoon around 4 o'clock, and soon we had a small wind hurricane sweeping over the city, blowing dust and debris everywhere, and the dash of torrential rain. The storm later calmed down and a gentle rain fell for several hours, which was most welcome.

The storm took a north-easterly direction out of Belle Glade and centered in a young hurricane at the plant of the Newport Ramie plant, where the dust was so thick that visibility was shut off. Everything was covered with a fine mud-gravel dust, and the wind whipped things around lively.

Reports that it took a double crew of men to hold down a conveyor belt attached to a dewatering machine, and work at the plant had to be suspended for the day, although ramie field workers returned to their work.

This much soil storm was compared to a western sand storm by Manager Jack Demsey, of the Newport company. In addition to the storm dust, much fire smoke from the that section added to the discomfort.

A. F. Waddell and W. C. Cobb have formed a partnership under the name of Champion Concrete Products, with plans of later in the season locating its main yard and office in Belle Glade. During the summer they will be operating their mobile plant at Venus producing block and other cement products for little men of that section.

W. A. Wall, who has been manager of the VFW hall room for the last year, is leaving that post to take up his new duties.

FLORIDA BATTLING

100 lbs on fresh vegetables (and fruits). On Oct. 12 the rail carriers amended their original petition by requesting an overall increase of 13 per cent, observing 12c per 100 lbs, as a maximum increase on fresh vegetables (and fruits).

"At the time of filing this last petition the railroads asked that an 'interim' increase of 8 per cent be immediately authorized and that a maximum of 8c per 100 lbs on fresh vegetables (and fruits) be also to be understood that each of the above petitions or requests, not only included a request for permission to increase freight rates, but those amounts, but also to boost 'accessorial charges', such as refrigeration service, which, as we go along, will prove to be quite important to the Florida industry."

"Now, going back to the 'interim' increase requested, note that this was for 8 per cent on both freight rates and protective charges, which the league opposed in all respects. The Commission permitted, a 6 per cent increase, or 2 per cent less than the carriers asked for, and denied any increase as an 'interim' in refrigeration charges."

"Summing just this, part of the proposition up, covering the interim increase, the saving of 2 per cent in freight charges was \$320,000, and the denial of an increase in refrigeration charges represents a saving of \$312,000 to citrus alone. Coupling the savings in freight rates and protective services charged on both fruits and vegetables—figuring this on an annual basis it would amount to \$5,000,000."

At the recent Interstate Commerce Commission hearings the league, through Stedman and Wells, introduced ten pages of testimony on vegetables alone plus over 30 pages of exhibits in support of the vegetable cause in Florida. Mr. Stedman assured the vegetable interests that this battle "will be pushed forward until a successful conclusion is reached" for the Florida interests concerned.

Meanwhile, plans are going ahead for the annual meeting of the league, which will be attended by many lake section members, at Orlando, at a date still designated, in mid-June.

MASONIC BANQUET
(Continued on page 6)

Kirldrum drew largely upon Mahi Shimi, in the way of entertainment for the Mahi Shrine, in the way of its sixpence band, its characters, and two of its members for the Master of Ceremonies and the speaker of the evening. Each and every one of them did them selves proud. Both the instrumental and vocal groups were par excellent and every one liked and cheered their presentations.

Dr. Russell Williams was the toastmaster and he had been moving on schedule. He took occasion to introduce the many lodge dignitaries and gave each an opportunity to speak to the group of whom accepted the offer, and took occasion to compliment the Belle Glade Masons as the great success of the party.

Howard Wright, known in Miami as "Chubby" and a man prominent in business and fraternal circles there, was introduced as the guest speaker, and he spoke most earnestly and entertainingly on the subject of "The Strength of Masonry".

When he finished his summation most of the banqueters, who were mainly members of the varied bodies of the Blue Lodge, the Consistory, the York Rite, the Eastern Stars, Rain-bow Girls and Demolays, were proud to think they held and possess such affiliations.

The guest list included many from Pahokee, Clewiston, W. Palm Beach and Miami, the Miami, delegation numbering around 30, and all declared they wanted to return again next year, if such a function was staged. This banquet and entertainment was sponsored by Belle Glade Lodge, No. 273, F. & A. M. of which Lawrence E. Will is the Worshipful Master.

Two Postal Employees Now Come Under Civil Service Regulations

A new Civil Service Postal Registry has been established in Belle Glade post office, and under its officers all employees will work. Mr. Wright, will be secretary of the new registry.

Prior to the holidays an examination was held for positions in the office, as a result of those returns, Mrs. William Cromartie and Miss Ruth Mackey, have been named to permanent positions. Hereafter they had been serving under appointment of Postmaster George Farrell, but now come under civil service regulations.

per man to fill the position held, and that I built up a good moral atmosphere and surrounding for the boys forming our teams. There were others who had an opposite opinion, and felt that my period of usefulness had reached its peak, and a change in coaches might be beneficial. Be that as it may, the School Board, settled the question for all concerned, and assigned me to the Lake Worth position, which is an advancement in rank.

I recommended and am pleased that the School Board has appointed "Doug" Levitt, as my successor, for I feel that in him the school will have a capable and dependable athletic director and coach. I am leaving Belle Glade with the best of relations between the school faculty, the children, and especially between the boys who have been under my immediate instruction and tutelage. I think that relation is reciprocal.

When I leave Belle Glade my interest in the school will not end, for in my new position I will be in a place where I can help in many ways, especially in seeing that the school has a

real representation in the conference in the manner of schedules of games, and not out in the cold, as has been the condition the past few seasons. I will also recommend and work to get Belle Glade boys scholarships where they are open, to recompense them for their fine school spirit and accomplishments.

I am appreciative of the fine support that has been given the Rams by the public during my regime, and the loyalty and friendship of the boys forming our teams of the past five years. I think that fact was established when the "B" club presented me with the wonderful remembrance watch and chain."

CINEMATIC CHATTER

By Malcolm Millar
I am very certain you will enjoy, to the very last frame, the "Julia Misbehaves", which is to be filmed at the Hugo Theatre, Sunday-Monday, starting, Greer Garson and Walter Pidgeon, supported by such excellent players as Peter Lawford, Elizabeth Taylor and Cesar Romero, who head a long list of featured players.

In "Julia Misbehaves", we find a story that can really prove its claim to be funny. The picture version of story tells of a London music hall girl who craves high society, with such adventures on the way as joining an acrobatic troupe (with until you see the dignified Miss Garson on a high trapeze in lights!) and hoodwinking an elderly roue (we call him a wolf over here) in a gambling casino episode. Other high-lights are Miss Garson's Bubble Bath, her encounter with a pinching baker and her dunking in a lake.

Yes, I am VERY certain you will find in "Julia Misbehaves" all that can be expected of a well written, excellently directed, and exceptionally well casted fast paced comedy.

See you at the movies. - Mal

Judson Lloyd, as Suckstach Bill, acted as master of ceremonies and presented each student with a comedy gift and appropriate limerick.

The finale of the program was a wedding of Miss Class of '49 to Mr. World Service, Barbara Hayman and Jerry Tannhauser.

The Rams tied up the score in the sixth inning, when Farmer singled Billy Jo doubled, Williams and Acree singled, to send two men across. The Rams had the bases loaded in the top half of the seventh, but Tommy Williams, who had a chance to become a real hero did not quite make out as his hit to first retired the side and the game was over.
